

## Final presentation of LOVE VET outcomes during regional education conference in Kassel/Germany

On Tuesday, June 20th 2017, the outcomes of the LOVE VET-project (Lifelong, outcome oriented Vocational Education and Training through a new teaching and learning culture) were presented during a regional education conference in Kassel/Germany.

The presentation of the LOVE VET outcomes (trainings concept for teachers and trainers, eLOVE App) and the discussion about the experiences of the work with

teachers and students was one workshop in the event “Bildung 2020 – lernen digital” of the HESSENCAMPUS Kassel in cooperation with the Oskar-von-Miller-Schule Kassel.

The event was focused on the question how learning processes – especially live long learning – are able to be realized and what must be changed in education organisations (e.g. VET schools) and companies.

Lokal and regional stakeholders (e.g. HESSENCAMPUS Kassel, Hessisches Kultusministerium) and guests from Finland, Austria and the Netherlands took part in the conference.
